

Sprint 1 Report

Product: Gigs

Team: Tung Hoi Man, Christopher Griffs, Tangni Wang, Thomas Bowen, Christopher Young

Team Name: Gigglers

Date: 10/24/2018

Actions to stop doing:

Stop postponing. We should stay active and work on the project when we have time.

Postponing hurts everyone in the team, so please stop postponing.

Actions to start doing:

Start getting familiar with the development tools we are using like git, github, ruby on rails, devise gem, and bootstrap. It's hard to get started but it is also necessary to do so. Things will get easy later. Start to communicate more, ask for help instead of postponing.

Build the user database and integrate it with the homepage.

Actions to keep doing:

Keep communicating through slack, trello, and video call, and in person meetings. We will keep each other updated on the tasks we are working on and continue to help each other when problems arise.

Incorporating the homepage into ruby, improve the profile page.
