Product name: Gigs
Team name: The Gigglers
Release name: Gigs
Release date: The end of Fall 2018
Revision number: 2
Revision date: 10/11/2018

HIGH LEVEL GOALS

An online platform that connects gigs employers and employees. Employers can build up their reputation from employees' review while employees can build their gigs portfolios from previous gigs.

USER STORIES FOR RELEASE:
(1, 3, 5, 8, 13)

Sprint 1
(5) As an owner, I want a good foundation so that the core features can be implemented.
(8) As a user, I want to be able to make a profile so that I have my own account with all my information.

Sprint 2
(5) As an employer, I want to use this website to post a quick gig so that I can get a job done quickly.
(1) As an employee, I want to look through and apply for some gigs so that I can make a quick buck.

Select employer

(8) As a user, I would like to be able to comment and rate who I work with so that I can share my experience.

Sprint 3
(1) As an employee, I would like to know if I can trust the people I am working for so that I can work safely and get paid.
(8) As an employer, I want to be able to choose from who applied for my gig so I can get the best person for the job.
(1) As an employer, I want to find reliable workers so that I can have my gig completed.

Sprint 4
(5) As a user, I would like to filter gigs so that the best gig can be matched to the person.
(3) As an owner, I want an easy to use website so that a lot of people will use this website.
(3) As a user, I would like a reliable website so that I can count on finding or posting a gig.
(5) As a user I would like to receive email notifications so that I don't have to constantly check manually on the website.

Product backlog (Possible features):
- As a user I would like payment to be handled through the website so that the transaction is easy and I know that payment will occur.
- As an employee I would like to be matched with potential gigs that I do not have to look through all the gigs.
- As a user I would like to sort the comments by relevance and date so that I can decide between multiple users.
- As a user I would like to use Gigs in app or mobile website format so that I can access this service however I want.
