Team name: Gigglers
Sprint completion date:12/3/2018
Revision number: 1
Revision date: 11/18/2018

Goal: Finishing up major functionality like job application, rating, comment and filtering. Have a working and decent looking website ready to deploy on Heroku.

User Story 6:
As a user, I would like to filter gigs so that the best gig can be matched to the person.
   Task 1 - Add filtering to gig database. (location, skills, etc.)

User Story 7:
As an owner, I want an intuitive, decent looking website so people are willing to use our website.
   Task 1 - Improve web interface:
      Home page UI and styling
      Post page UI and styling
   Task 2 -
      Profile page UI and styling
      Job application UI and styling

   Task 3 - Hosting.
      Deploy website and database on Heroku

User Story 8:

As a user, I would like to be able to comment and rate who I work with so that I can share my experiences with other users.

     Task 1 - Rating system

     Task 2 - Comment system

User Story 9:

As a user, I want to keep track of my applications/applicants so I can keep up with the hiring process.

     Task 1 - Show all of my job applications (employee perspective)

     Task 2 - Show all applicants (employer perspective)
