Sprint 2 Report

Product: Gigs
Team: Tung Hoi Man, Christopher Griffis, Tangni Wang, Thomas Bowen, Christopher Young
Team Name: Gigglers
Date: 11/2/2018

Actions to stop doing:
Stop postponing. It's been getting better this week but we still need to be more active and keep the good communication with the team when we all have time. We need to stop avoiding documentation.

Actions to start doing:
Start to all work on the documents together such as the sprint report. We should all add thought to the report other than keep postpointing until the deadline approaches. Good thing all team members should be familiar with the development tools now and we should start to get more work done on the project. Keep up with the communication. Build the user database and integrate it with the homepage.

Actions to keep doing:
Keep communicating through slack, trello, and video call. We should keep each other update on the tasks we are working on and the tasks we have done. Keep up the momentum because quarter goes very fast. We should also keep asking if any problems come out.
Incorporating the homepage into ruby, improve the profile page.

Work completed/not completed:

Completed:
Story 3:
As an employer, I want to use this website to post a quick gig so that I can get a job done quickly.
1. Profile page Front(4 hours)
    a. Modifiable by user
